RADIANT GAS FIREPLACE

Freestanding

Stove Series

Madrona stove (MF28J) in Black casting (MFCS01-1) with Square front (MFCS01-3) and Logs (MF28LSK).

Timeless: freestanding stoves

Our Freestanding Stove Series provides a choice between a variety of design styles, both traditional and transitional, without sacrificing the most important Valor ingredient—efficient, radiant warmth. Valor freestanding stoves provide a reliable heating source, adaptable to any living space, for years to come.

Radiant and Convective Heat

- Our freestanding stoves supply a constant flow of radiant heat and naturally convected warm air.
- Continuously warming objects in its path—including the human body— radiant heat satisfies your comfort needs with up to 25% less overall energy compared to forced air systems.
- Valor heaters utilize special steel and ceramic components that heat up quickly and reach efficiency in minutes.

Zone Heating

- With one or more in your main living zones, you can enjoy increased comfort while reducing furnace usage in colder weather or eliminating it during warmer spring and fall weather.

No Power, No Problem

- Engineered to circulate air through natural convection, Valor freestanding stoves are highly efficient without a fan— providing reliable heat, even during a power failure.

ValorStat PLUS Remote Control

- Easily select, adjust and program the desired temperature that you want, saving energy and lowering your overall home heating costs.
- Pilot On Demand:** Turn your pilot light ON and OFF from the handheld remote for years of additional energy savings.
- Energy Saving Feature:** The Valor SmartPilot System automatically shuts down if there's no activity after five days, reducing unnecessary pilot consumption.

Design

- Large windows provide visibility to a realistic flame and fire bed designed to offer efficiency.
- Capable of both top and rear vent applications.

President (530 and 531) and Coals (530CSK) with reversible Red Brick liner.

Madrona

Timeless in design, the clean lines of the Madrona projects warmth and ambience and easily replaces an old wood stove.

- Available in an arched and square front design.
- Choose from Black powder coated or Majolica Brown enamel finish.
- Beautifully detailed cast iron craftsmanship
- Impressive radiant heating.
- Advanced sealed combustion, direct vent technology makes the Madrona the best in efficiency and safety.

Secondary Heat exchangers

Like most Valor fireplaces, the **Madrona** and **President** stoves have built-in secondary heat exchangers that naturally enhance the convected heat, removing the need for a fan.

President

Smaller size and input

Crafted with detail and inspired by classic design, the President freestanding stove is perfect for upgrading traditional and contemporary spaces.

- Projects a mere 14.5 inches into the room, leaving plenty of space.
- Shows great freestanding as well as tight against a wall.
- Solid cast iron encases a proven Valor Portrait engine.

LPG	14,500			

* All Valor's EnerGuide ratings and outputs are determined without a fan/blower, using the CSA P4.1-09 test method.

FIREPLACE SAFETY — USE RADIANT HEAT SAFELY

Fireplace surfaces, in particular the glass viewing window, are extremely hot during operation and will remain hot for a period of time after the fireplace is turned off. Contact with the hot glass can cause severe burns. Close adult supervision is required if there are young children, or at-risk individuals in the house.

Included with your purchase, a Valor Barrier Screen is recommended at all times. Install an approved aftermarket safety gate to keep toddlers, young children and at-risk individuals a safe distance from the fireplace.
